Education

JSPM Rajarshi Shahu College of Engineering

B.Tech, Computer Engineering

Cumulative GPA: 9.11

Pune, Maharashtra

Expected Graduation: Aug 2028

Professional Summary

Computer Engineering undergraduate experienced in building full-stack applications, AI-powered tools, and back-end systems using React, Spring Boot, Node.js, REST APIs, and databases.

Experience

Enginow — Full Stack Developer Intern

[Live Demo](#)

Frontend Developer Intern — Backend Integration

May 2026 – Present

- Built a full-stack event platform with **15+ Node.js/Express REST APIs** and **MongoDB integration**.
- Built **20+ React components** for auth flows and dashboards, improving UI development by **~40%**.
- Led a **3-member frontend team**, optimizing API integration, deployments, and managing **50+ commits**.

Computer Society of India (CSI) – Student Chapter

Pune, Maharashtra

President

Apr 2026 – Present

Core Team Member – Video Editor

Oct 2025 – Apr 2026

- Promoted from **Core Team Member to Chapter President**; oversee technical events, developer communities, and coordination for **30+ student members**.
- Organized hackathons, workshops, and speaker sessions through structured planning across project teams.

Projects

ReFlow — AI-Powered Smart Workspace Manager

[GitHub](#)

JavaScript, Chrome APIs, AI APIs, Browser Storage

- Built a **Manifest V3 Chrome extension** managing **100+ tabs** through AI workspace classification.
- Designed **3 core modules**: tab engine, workspace restoration, and AI classifier using Chrome APIs.

Mini Redis – In-Memory Cache System (LRU + TTL)

[GitHub](#)

Java, Spring Boot, REST APIs, Data Structures

- Developed a Redis-inspired cache system supporting **1000+ cache operations** with LRU eviction.
- Built REST APIs using Spring Boot MVC with **O(1) retrieval** and optimized memory management.

TestGen AI – AI-Powered QA Automation Platform

[GitHub](#) | [Live Link](#)

React, Node.js, OCR, LLM APIs, Selenium

- Built an AI QA platform generating **50+ automated test cases** using OCR and LLM-powered analysis.
- Developed full-stack workflows integrating React, Node.js, exports, and Selenium automation.

Technical Skills

Languages: Java, C++, JavaScript

Frontend: React, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot, REST APIs

Databases: MySQL, MongoDB

Core CS: Data Structures & Algorithms, OOP, DBMS

Tools: Git, GitHub, Postman, Docker, Vercel, Render

Achievements and Competitions

- Promoted to President of CSI RSCOE.
- Second Runner-Up — Google GenAI Hackathon.
- Secured 3rd Place — DevFusion, IIT Bombay.

Coding Profile

- Solved 150+ problems across [LeetCode](#) and [Codeforces](#).
- Active in competitive programming and algorithmic problem solving.
